

## WEM Special Focus OPHTHALMOLOGY

WEM assists, procures, organises, and implements for the benefit of humanitarian projects worldwide. Through our close co-operation with CBM Christoffel-Blindenmission Ophthalmology has become a focus among our range of products.

You will be provided with a comprehensive range of products, professional know-how, and the experience which products are reasonable for which area.

One of our specialities is to consolidate shipments of all items required and to arrange the shipment to any place in the world. All required documentation and certification is arranged by us.
